# The Kingston Daily Freeman

CITY OF KINGSTON, N. Y., FRIDAY EVENING, MARCH 7, 1952.

**Wounded Attorney**

Attorney Sol A. Rosenblatt, disputed heir to the estate of Mrs. Eleanor Morgan Satterlee, is carried from his Park avenue apartment in Manhattan after being shot in the left thigh as he entered the building. Despite his wound, which was not critical, Rosenblatt has a smile for the photographers. Police said a man stepped out of a parked car and levelled three shots at the lawyer and then was driven away by a companion.

**Society Lawyer, Heir Is Shot As He Enters New York Home****Kingston's Traffic Safety Mark Beats Most Other Cities****City Stands Out Plainly in National Returns; 37,500 Fatalities During Year**

**(Special to The Freeman)**  
New York, March 6.—In the past year, which saw a near record created in fatal automobile accidents throughout the nation, Kingston was able to enter the select circle of cities with perfect records of no traffic deaths for the entire year.

**Marked Contrast**

Kingston's accomplishment for the year, which is an improvement over its 1950 record of three traffic fatalities, stands in marked contrast with the national returns of 37,500 killed, a rate of 24.5 deaths per 100,000 population.

While Kingston was fashioning its perfect record for the year, the other cities in its size group, 25,000 to 50,000 population, were recording an average of 8.8 fatalities per 100,000. The record for the state of New York was 13.6 per 100,000.

The auto accident picture was also examined by the council to determine the number killed in proportion to the number of cars in operation. Kingston's no fatality record is in distinction to the average for all the cities, 3.0 deaths for every 10,000 cars. Among the cities of Kingston's size group, the rate was 2.2 deaths per 10,000 cars.

**Worst Traffic Toll**

The year 1951, reports the council, produced the worst traffic toll (Continued on Page 14, Col. 3)

**Take \$100,000****Two Masked Bandits Hold Up Quonset Naval Credit Union**

Naval Air Station, Quonset Point, R. I., March 7 (AP)—Two masked men carrying short stubby revolvers held up the manager of the Quonset Point Naval Air Station Credit Union and a civilian guard today and escaped with \$100,000 in cash.

Naval station officials said the bandits fled in a green sedan, racing through the air station gate at 50 miles an hour. Three marines were on duty at the gate.

Government funds were not involved.

Gerald Lynch of Apponaug, R. I., the credit union manager, and Thomas Smith, civilian guard, were about to carry the funds—in canvas sacks—from their parked cars at the rear of the building when the bandits drove up.

**'Not Kidding'**

Lynch said the gunmen jumped out of their car, waved the guns at them and one of them said: "We're not kidding."

Lynch said the two men grabbed the money sacks, jumped into their green sedan and fled.

One of the marines at the gate jumped into a car and gave chase (Continued on Page 14, Col. 2)

**Teen Gang Admits to Burglaries****Confessions Reported by Sheriff Obtained From Four of Band Being Held****Travel by Car****Wide Areas of County Hit; 300 Gallons of Gas Stolen**

Investigation by the sheriff's office during the past two weeks points to the existence of a gang of teenage burglars which operated over a wide section of Ulster county for at least four months.

Confessions which sheriff's men report they have obtained from several youngsters and the amount of allegedly stolen items still being recovered indicate that the full extent of the wave of burglaries is even yet not fully known.

Four suspects have been detained. Two boys face grand jury action on burglary charges, and two minors under the age of 16 face Children's Court action. "Several others" are known to have been involved, the sheriff's office reported this morning.

The thefts, some of them reported, and some not reported, occurred in gasoline stations and used car lots, summer homes and camps from Samsonville in the town of Olive to Ellenville in the town of Wawarsing, according to the results of investigation by the sheriff's office.

**Recover Some Items**

New York, March 7 (AP)—Sol A. Rosenblatt, society lawyer and disputed heir to a J. P. Morgan granddaughter's fortune, was wounded last night by a mystery gunman as he entered his Park avenue home.

The attorney, one-time general counsel for the Democratic national committee, was struck in the left thigh by one of three shots fired by his assailant, who escaped in a car with another man.

The car, reported stolen, later was found abandoned four blocks north on Park avenue.

Rosenblatt, 51, a key figure in the currently contested will left by Mrs. Eleanor Morgan Satterlee, kin of the late J. P. Morgan the elder, said after the shooting: "I wish I had something to tell you, but I don't know anything."

His wound was described as not serious. A policeman was assigned to guard him at New York Hospital.

**In Labor Storms**

Rosenblatt, besides handling the legal affairs of numerous society figures, is impartial chairman of the New York cloak and suit industry, often a storm center in labor relations.

He served as an administrator of the National Recovery Administration (NRA) under the late President Roosevelt.

The will of Mrs. Satterlee, who died last April 11, made Rosenblatt the chief beneficiary to an estate estimated from \$35,000 to several hundred thousand dollars.

The document is being contested in surrogates' court by Mrs. Mabel S. Ingalls, Mrs. Satterlee's sister, who received nothing.

**Accused of Influence**

Mrs. Ingalls charges that Rosenblatt and Dr. Richard H. Hoffmann, Park avenue psychiatrist, exerted undue influence over Mrs. Satterlee.

Witnesses in the case have testified that Mrs. Satterlee was in love with Dr. Hoffman and left her fortune to Rosenblatt so he could see that Hoffman got it. In the will, Hoffman was bequeathed only an oil painting.

**Following the shooting, a police guard was placed in the home of Hoffman, who said:**

"Maybe they were out to get me and made a mistake. Rosenblatt and I look alike, you know. Furthermore, as a psychiatrist, I am afraid of a chain reaction, as we both are involved in the same case. I might be next."

**Hoffman is married and has a son, Richard, Jr.****Gunman Escapes**

The gunman accosted Rosenblatt as he was about to enter his apartment house after strolling home for dinner from his Fifth Avenue office.

A sedan, its motor running, was parked by the apartment entrance as Rosenblatt, his back to the street, started to enter the building.

**The doorman, Edward Minerly,**

saw a man suddenly leap from the parked car and fire three shots from a .32-caliber pistol.

**The first bullet hit the attorney,**

a second landed inside the apartment lobby and a third pierced a panel in the glass entrance doors.

**The gunman leaped into the waiting car which sped away.**

Police said they had not uncovered any motive for the shooting and that Rosenblatt had received no threatening communications. Rosenblatt's wife, Estrella, said her husband could not identify his assailant.

Lynch said the gunmen jumped out of their car, waved the guns at them and one of them said: "We're not kidding."

Lynch said the two men grabbed the money sacks, jumped into their green sedan and fled.

**Diary Damaging****Says Home Damaged by School Job****Andrew Street Resident Informs Board Walls Are Cracked During Field House Work****Teachers Resign****Federation of Labor Is in Favor of Prayer to Start Day**

A communication was received from Mrs. Margaret M. Brannen of Andrew street complaining to the board of education that the work being carried on in connection with the erection of a field house on the high school property adjacent to Andrew street, had caused damage to her house. She reported that the walls of her home were being damaged. The matter was referred to the Insurance Committee.

Two members of the teaching staff of the city school system submitted resignations to the board Thursday evening. Mildred Gordon submitted her resignation as of February 25, due to illness and Dr. Ruth M. Northway, director of elementary education, who has served during the past three years submitted her resignation, effective at the close of the school year. Both resignations were accepted with regret.

Permission was granted Miss Margaret M. Schuetz to attend a conference at Syracuse on March 14 and 15.

A communication was received from the Employment service notifying the board that Everett Scott, an employee at No. 4 school was eligible for retirement on May 1, 1952.

The state department recently notified the Stony Clove Parents Committee, of Lanesville, of this fact after a request for action made to State Senator Arthur H. Wicks was forwarded to B. D. Tallamy, state superintendent of public works.

**Materials Are Holdup**

Henry TenHagen, deputy chief engineer in the department, notified the parents' committee, of which John Rapp, is chairman, that "The above project is on our first stage construction program and has been advanced to the Federal Bureau of Public Roads for approval."

This approval has not been granted because of restrictions on critical materials, the engineer said, and although it has not been obtained, to date, the department has been "making every effort to secure such approval, and are placing it at the top of our 1952 construction program."

**Authority Was Given to Pay J. A. Cassidy & Son \$264 for Coat Hangers in the Washington school kindergarten.**

On motion of Trustee Leehee for the finance committee the payroll and vouchers in payment for bills was ordered. The February payroll \$17,316.22; F.D.A. School Lunch program for salaries and vouchers \$5,895.36 for February; Veterans on-the-farm Training Program salaries and vouchers \$1,566.69 for February.

Trustee Baltz for the Building committee moved for adoption of various "change orders" for the Washington School as follows: Credit Hewitt & Worden, electrical contractors \$175 for sound system work; E. W. Tompkins Company, Inc., plumbing credit \$46.84 for drain change; E. W. Tompkins Company, Inc., credit \$440 for work on kitchen equipment; E. W. Tompkins Company, Inc., credit \$30 for installation of larger catch basin.

**Praise Wicks Aid**

The committee's letter of Feb. 26 to Senator Wicks said the committee "is very thankful for your help in getting five miles of new state highway constructed through your untiring efforts. The people through the Stony Clove valley will never forget your staunch support for without your support our children would still be traveling over a road comparable to the horse and buggy days."

The committee asked in its letter to the senator if there would be federal aid for Greene county on the town-to-market program for the south section of the Notch Road, and said the committee understood that it was to be a three-year construction plan.

The Greene County Board of Supervisors and the town board of Hunter have voted for construction of the road on a second year program, the letter said.

**Some See Political Tie In Truman's Appeal for Aid to Stem Red Spread****Appeals to Nation**

President insists that Full Seven Billion, 900 Million Needed to Do Job

**Face Stiff Fight**

Hickenlooper Declares Democrats Figure on Money to Stay In

Washington, March 7 (AP)—President Truman's one-two "Sunday punch" for his \$7,900,000,000 foreign aid program left Congress members still talking about scaling it down today, almost as if nothing had happened.

Even administration supporters conceded they were in for a rough time.

The President led off with a 7,500 word special message to Congress yesterday noon declaring every single dollar of the amount he asked for was needed to meet the threat of Russian communism.

Then he went on a far-ranging network of radio and television last night to carry his plea direct to the American people.

Although the President said "we'd be better off to win the fight against communism than to win any particular election," some senators and representatives said privately today that he appeared to be injecting politics into the matter after asking them to avoid doing so.

**Asks Every Dollar**

Alluding to congressional threats to slash foreign aid by billions, Truman told his radio TV audience:

"Now I know this is a very popular point of view, especially in an election year—just as popular as a campaign pledge to reduce taxes."

But he said the \$7,900,000,000 request was not "a single dollar more than our national security requires."

Sen. Hickenlooper (R-Ia.) said what the President "really means is they won't spend a dollar more than the Democratic administration requires to stay in power."

"We failed to stop communism in Korea and it's become more clear every day that European unity is not materializing," Hickenlooper said. "Meanwhile the evidence of waste and corruption in public funds and contracts is growing."

**See Stiff Fight**

Two Democrats on the Senate Foreign Relations Committee, McMahon of Connecticut and Green of Rhode Island, applauded the Truman appeals but, in separate interviews, agreed they face a stiff fight this year.

The Senate and House Democratic chairmen who normally predict cuts in foreign aid bills, predicted cuts.

Chairman Richards (D-S.C.) of the House Foreign Affairs Committee, was asked if Congress may gouge out more than a billion "and I'm not saying that it should be more than that."

Chairman Connally (D-Tex.) of the Senate Foreign Relations Committee, was happy Truman asked less than last year, when he requested 8½ billion, but added:

"I am confident that even this lower figure can be cut."

**Beat Off Red Attacks**

Seoul, Korea, March 7 (AP)—U. S. marines beat off five pre-dawn attacks on the rugged eastern front in Korea today. None of the attacks was in force. But they were the largest reported along the 155-mile front. The Reds began probing positions of the U. S. First Marine Division about 2 a.m. The skirmishes continued intermittently until 6:45 when the Communists pulled back to the safety of their bunkers. The longest fight lasted about 20 minutes.

**Treasury Receipts**

Washington, March 7 (AP)—The position of the Treasury March 5: Net budget receipts, \$126,500,593.88; budget expenditures, \$184,305,042.67; cash balance, \$4,394,085,003.44; customs receipts for month, \$7,038,799.06; budget receipts fiscal year 1, \$34,787,258,255.79; budget expenditures fiscal year 1, \$42,700,888,884.83; budget deficit, \$260,331,833,748.02; decrease under previous day, \$49,182,060.29; gold assets, \$23,290,477,452.23.

## Bleacher Collapse Injures 275 People

Baltimore, March 7 (AP)—A huge section of ice show bleachers, "not even nailed down," collapsed like a giant game of jack-straws and injured more than 275 persons last night. Thirty-two of them were reported in "serious condition."

As 10 hospitals continued treating the bruised and battered victims, the city revealed it hadn't issued the Sonja Henie Show a permit for the temporary stands in Baltimore's Fifth Regiment Armory.

Though none was required by law, the show had asked for one and had been refused, according to Building Inspector Paul Cohen.

The massive section shuddered and gave way about 8:25 p. m., five minutes before the show was scheduled to begin.

The heavy beams and planks went down with a roar, pinning men, women and children under a mass of heavy splinters. Men tore at the tangled beams to rescue screaming children and crying women.

### News Guild Awards

New York, March 7 (AP)—Vivien Leigh, Jose Ferrer and Jimmie Durante today were picked for annual page one awards by the Newspaper Guild of New York.

The awards, to be presented at the Guild's Page One Ball April 18, were for Miss Leigh's acting in the movie "A Streetcar Named Desire," for Ferrer's directing, acting and production of the Broadway play "The Shrike," and for Durante's television show.

### General in Italy

Naples, Italy, March 7 (AP)—Gen. Dwight D. Eisenhower wound up his four-day military tour of Greece and Turkey, the two new members of the Atlantic alliance, and flew to Italy today for talks about fitting the newly added forces into his southern command.

This afternoon he was due to fly to his Paris headquarters. An earlier plan to stop in Rome for talks with Italian officials there was canceled.

### Raid Chinese Junks

Saigon, Indochina, March 7 (AP)—French naval commandos today attacked and destroyed 150 junks believed to be carrying supplies from Red China to Communist-led Vietminh forces. The French commandos, using U. S. supplied assault craft, made the surprise raid in Songbau Bay on the coast of Annam, 250 miles northeast of Saigon. They also blew up a big ammunition factory.

## Insurance Expert To Talk March 27 At Local Dinner

At a well attended luncheon meeting of the Ulster County Association of Local Insurance Agents, held this noon at the Stuyvesant Hotel, Lawrence A. Quilty, president of the organization, announced plans for the annual dinner.

Quilty said that after a good deal of effort on the part of his committee, they had been successful in securing Charles F. Harrington as guest speaker for the annual dinner to be held at the Governor Clinton Hotel the evening of March 27.

Harrington, a former commissioner of insurance for the State of Massachusetts, will have as his topic Compulsory Automobile Insurance. As a commissioner of insurance for the pioneer state for this type of coverage, his talk will be one of great interest not only to the insurance agents but to the public, Quilty said. Prior to holding the position of insurance commissioner in his home state for longer than any predecessor, Harrington has spent all of his life in the insurance field. He is past president of the Insurance Society of Massachusetts, a member of the National Association of Casualty and Surety Agents, and vice-president of the Massachusetts Brokers Association.

President Quilty further said that Harrington will hold a question and answer period on the question of compulsory automobile insurance.

The public is cordially invited. Tickets may be obtained from any member of the Ulster County Association of Local Agents.

### Wants Hat Receipts

Albany, N. Y., March 7 (AP)—

Cities would be granted power to impose taxes on hat check receipts, under a bill passed by the Senate today. The measure was sent to the Assembly. Under it, cities could tax hat check concessions up to 50 per cent of the gross receipts. The sponsor, Democratic Senator Fred G. Moritt of Brooklyn, said such a tax would produce "millions of dollars" of revenue for cities. The Senate also passed the same bill last year, but it died in the Assembly Ways and Means Committee.

### Tractor Hits Pole

A tractor-trailer owned by De-

Forest Reed of Carthage and driven by Archie Baker, 37, of Natural Bridge, ran off Route 9W

a half-mile south of the Highland traffic circle at 6 a. m. today and struck and broke a utility pole.

Wires on the pole did not break, however, troopers said. The large vehicle suffered minor damage to its front end, and no personal injuries were reported. Baker told troopers the accident happened when engine fumes entering the cab made him "drowsy," according to the state police report.

### Want Spivey Back

New York, March 7 (AP)—The

New York county grand jury investigating basketball scandals said today it was anxious to give William Spivey, University of Kentucky All-America player, an opportunity to testify again. A spokesman for the District Attorney Frank S. Hogan's office said a "sharp conflict" exists between testimony previously given to the grand jury by Spivey and two of his teammates.

### Raid Chinese Junks

Saigon, Indochina, March 7 (AP)—

French naval commandos today attacked and destroyed 150 junks believed to be carrying supplies from Red China to Communist-led Vietminh forces. The French commandos, using U. S. supplied assault craft, made the surprise raid in Songbau Bay on the coast of Annam, 250 miles northeast of Saigon. They also blew up a big ammunition factory.

### Dies at Wheel

Brewster, N. Y., March 7 (AP)—

Carl Wildrick Bartow, 56, of 15 Woodlawn avenue, Middletown,

died of a heart attack today in the cab of a truck he was driving on Route 6. Police said he was en route from the Spalding bakery plant near Danbury to Middletown when he collapsed near the railroad station here. The truck came to a halt without damage.

### Sell More 'E' Bonds

New York, March 7 (AP)—Public

holdings of Series "E" Savings Bonds are at an all-time high of \$34,800,000,000, says Secretary of the Treasury Snyder. In a speech yesterday, Snyder said "E" bond sales in January and February this year were six per cent above the same months in 1951. He added that the amount of bonds cashed during the period was nine per cent lower than last year.

### Money for Probe

Washington, March 7 (AP)—The

Senate Rules Committee today voted to provide \$100,000 for an investigation of the Alien Property Office, a division of the Justice Department under Attorney General McGrath.

### Eden Improving

London, March 7 (AP)—Foreign

Secretary Anthony Eden, ill with the flu since last Monday, is making a satisfactory recovery, a former office spokesman said today.

### Early Start Popular

New York, March 7 (AP)—The

7-o'clock curtain on Monday nights for "South Pacific" has proven so successful that 16 other Broadway producers may follow the plan in the fall.

## Financial and Commercial

New York, March 7 (AP)—Buyers placed heavy emphasis on rails, oils, and radio-television shares today in the stock market while other areas of the list were neglected.

The accent was on the oils and rails with interests in either the famed Williston Basin of North Dakota and Montana or in Florida where developers are sniffing for oil.

Gains ran ahead to between 3 and 4 points at the outside among the favored few with the bulk of the gains from fractions to between 1 and 2 points. Losses carried on down to between 1 and 2 points at the most.

Investigation is continuing by the sheriff's office, which claims to have linked up the numerous thefts to a group of boys. Every boy, however, did not participate in every theft, it was reported.

## McDonalds on Way To Jerusalem

New York, March 7 (AP)—James G. McDonald, of Bronxville, N. Y., first U. S. ambassador to Israel, sailed early today on the liner Queen Elizabeth.

McDonald, now chairman of the Advisory Council of Bonds for Israel, Inc., and his wife are bound for Jerusalem. Before going to Jerusalem, the McDonalds will attend the opening of the Bonds-for-Israel Drive in Birmingham, England.

McDonald said that in Jerusalem he wants "to see where American dollars are going, to examine some of the new projects—fortifications and industries—and to visit my many friends there."

The McDonalds will be in Jerusalem for the Passover-Easter season and will be members of the diplomatic group which will be permitted to cross between the old and new sections to visit the Christian shrines in the non-Christian area.

### Flatbush Church Speaker

Lee Crandall, an agricultural missionary to Africa for the Reformed Church in America, will be the guest preacher Sunday, March 9, at the Flatbush Reformed Church. Mr. Crandall has recently arrived in this country on furlough from the mission field.

## Says Industry Is Due for Materials

New York, March 7 (AP)—A federal official yesterday explained the effects of the relaxation of the two-year-old government restrictions on use of steel, copper and aluminum for commercial and industrial construction.

Frank R. Creedon, assistant administrator of the National Production Authority, told a meeting of the New York Building Congress that defense production is "over the hump" and efforts now will be made to relieve unemployment in non-defense building projects.

Creedon emphasized, however, that full-scale operation does not apply to amusement and recreation projects.

The critical unemployment areas of the building trades, he said, are New York, northern New Jersey, Boston, Washington, D. C., Portland, Ore., Seattle, Wash., and Los Angeles.

### Confirmation of Racing Appointment Expected

Albany, N. Y., March 7 (AP)—The state Senate is expected to confirm Governor Dewey's reappointment of Henry M. James of Hudson to the State Harness Racing Commission.

James, a newspaper publisher, is chairman of the three-member agency that supervises harness racing in the state.

Dewey sent the appointment to the Senate yesterday. James' new term in the unsalaried post would end March 1, 1958.

### Must Run Train

Trenton, N. J., March 7 (AP)—The New Jersey Public Utility Commission today turned down another proposal for dropping a train operated between Jersey City and Spring Valley, N. Y., by the New Jersey and New York Railroad Company. A similar denial was made in November, 1950.

The train leaves Jersey City on weekdays at 4:45 p. m. and arrives in Spring Valley at 6:07 p. m. The PUC said "public convenience and necessity" require continued operation of the train. The railroad contended it was losing money on the train.

### TENTH ANNIVERSARY OF 'VOICE'

The Voice of American is now 10 years old. Its span of life measures the time we have been actively organized on our real awareness of the importance of propaganda in the developing contest for men's minds.

Taken over all, the Voice's performance in this first decade must be commended as a resounding success. It has spread the story of America effectively in many countries, buoying the hopes of oppressed peoples, carrying the message of free men.

It has sufficient imaginativeness in its upper echelons to be continually experimenting with new ideas, new avenues of approach to the foreign peoples we are trying to reach. It consistently endeavors to expand its operations, within the financial limits imposed by an often skeptical Congress.

But this does not mean the Voice has done anything like a perfect job. In its growing pains stage, it was guilty of many gross errors, some pretty hard to forgive. A distorted picture of America was sometimes presented. Guidance of the programs occasionally appeared loose and disjointed.

The Voice operates, of course, under certain inherent handicaps. As legally constituted, it is an arm of the State Department. It cannot present material, or a point of view, which is at variance with official government policy. It cannot and does not promote rebellion behind the Iron Curtain.

Sources behind the Curtain frequently have complained that this sorely restricts its usefulness. They declare that Europeans under the Russian heel want to know more specifically what hope there is for them in America's program, and what they may do to get ready for the day of liberation.

They lament further that Voice programs too often stress irrelevant aspects of American life, instead of emphasizing the elements of the democratic way which can have the most meaning and hope for them. And they don't always like the manner the Voice employs in presenting its material.

So long as the Voice is tied to the State Department, it cannot divorce itself from official policy, nor mix too closely in European affairs.

To a considerable extent, however, this complaint is now being met by the supplementary and vital activities of Radio Free Europe. Aided by a powerful transmitter in the Munich area, RFE is talking to the Iron Curtain peoples in their own terms. Czechs are telling Czechs what the truth is in their own land, urging action against spies and saboteurs (though not revolt), and generally spurring hope.

But the Voice apparently will continue to have the responsibility of conveying to Europeans a sane and useful picture of the United States. And there is no visible reason why, after 10 years, this cannot be done with full and clear emphasis upon the features of our living which have most significance for foreign listeners.

Iron Curtain dissidents have felt that Voice broadcasters sounded more like actors running through their parts than like sincere partisans of democracy trying to sell the merits of their system to others—and keep hopes of freedom alive.

We have every right to expect steady progress by the Voice in tailoring its programs more closely to European and other foreign needs. And the directors and personnel of the Voice, in turn, have every right to anticipate from Congress and the people a stout measure of support in reward for a job fundamentally well done.

Representative Robert L. Doughton of North Carolina, chairman of the House Ways and Means Committee, is retiring at 88, after 42 years of service. That his health requires this step must be a bitter disappointment, for some time ago he was reported to have as his ambition the breaking of the House record for long membership. The present figure, 46 years, was attained by former Speaker Joseph G. Cannon, "Uncle Joe," of Illinois; so that Doughton had a good chance to beat his mark.

"This year will be the worst but most important," says a top government official con-

**THE CITY OF NEW YORK**  
There is no getting around the fact that the largest city of the United States, with a population of 8,000,000, is bordering on bankruptcy. Were the rules of accountancy generally applied to private enterprise applied to the affairs of the city, a receiver would have to be appointed by a court to protect the assets and perhaps to arrange for liquidation.

Mayor Impellitteri goes up to the capital in Albany to seek state aid. State officials come down to New York to analyze accounts. The politicians are scared.

I am not an expert in municipal affairs, having devoted my years to other subjects. Nevertheless as a resident of this town, paying a heavy rent for the privilege of living in one of its barracks, I have for years noted the trend toward bankruptcy.

First came Fiorello LaGuardia, a charming but absurd person. He was a very popular mayor who was the enemy of gamblers, like Senator Estes Kefauver, but he involved the city in social enterprises beyond its capacity to pay for them. When William O'Dwyer became Mayor, he found the till empty.

In spite of that, the city took on the socialistic enterprise of owning an obsolete transportation system, including the subways. Since then, the city has been forced to make up the subway deficits, to raise the fare from five cents to a dime, to increase wages without increasing revenue. The subway system is impoverishing New York. The politicians, headed by the Mayor, are apparently stunned by the facts of life.

In addition, they face the violent Mike Quill, leader of the transport workers, whose union was once Communist controlled but is said now to be cleansed of that taint. Whether cleansed or not, the union is as tough on the citizens today as it was when Harry Sacher was its lawyer and two Communists, John Santo and Austin Hogan, ran it with Quill.

If all the union demands were granted, and new ones appear as soon as the current ones are accepted by the city, subway fares would climb beyond common sense. The public does not want a 15 cent fare which means 30 cents a day, or \$1.50 a week, going to and coming from work, to say nothing of an occasional trip for pleasure or to visit a friend or even a mother-in-law.

So the politicians go in for wishing and hoping and wondering who in the end will have to accept the political blame for the 15 cent fare.

Meanwhile, the normal functions of the city—streets, schools, hospitals, parks—are suffering from inadequate appropriations. The firemen picket City Hall for a wage increase, anyone who knows a policeman personally or his family realize that these poor devils who have to take their chances against revolvers and switch-knives on their jobs cannot make ends meet.

So, the lights are bright on the Great White Way, which is swiftly degenerating into a less glamorous Coyote Island. And the restaurants are full and in the side streets, pushers work at dope and scoundrels trick young girls into vice. But there is not enough money properly to police the city and the parks are dangerous places at night.

It is a pity that this once beautiful city has fallen on such ugly days. I have lived here, on and off, for more than half a century and no one can tell me how deep the degeneration is, because I see it in the dirty streets all about me. I remember, as a boy, walking through lovely streets which are now narrow lanes on which automobiles are parked bumper-to-bumper and, until recently, on some streets there was double and triple parking because the politicians hated to give out tickets and become unpopular.

Maybe New York is too large an enterprise to be run by politicians whose greatest experience in life has been to get themselves elected to office. It would seem that a reorganization committee, something like a Hoover Commission on Organization of the Executive Branch of the Government, needs to be appointed to look into the affairs of this gateway to America. Certainly, no palliative will help the city, although it might help the politician win one more election before the leftist city in the world goes broke.

### CARE OF PATIENTS NEARLY WELL

Some months ago I wrote about work being done by Dr. E. M. Bluestone with his associates at the Montefiore Hospital, New York city, in which "home care" was given to the convalescent and the elderly. That is, patients who had begun to get well, together with a number of elderly patients with chronic ailments, were sent home and the facilities of the hospital followed them. Also just a few months ago, I quoted Dr. Edward Strecker, professor of psychiatry, University of Pennsylvania, in his book "Fundamentals of Psychiatry" in which he described the psychoses of old age in which there is a downward trend, mentally and physically.

Here are the latest, inside developments that could lead to peace or full-scale war in a matter of weeks.

1. Orders from Washington are to persuade the Communists to sign a half truce—in other words, to nail down in writing the agreements that have already been reached orally. It is hoped this will prevent the Communists from backing down on their word and speed the truce talks.

2. However, the Central Intelligence Agency is convinced the Chinese will try to prolong the Korean stalemate indefinitely. Thus the Chinese Communists can continue to draw war goods from Russia to equip their armies and build a powerful air force. But CIA also reports that the Russians are worried about China's growing strength and are secretly urging a truce as an excuse to cut off the equipment.

3. If the truce negotiators cannot come to terms, General Ridgway wants to blockade the Chinese coast and bomb the Chinese mainland. The final decision must come from President Truman, however, who still hopes for a peaceful way out.

4. Inside the joint chiefs of staff, General Vandenberg has warned that we don't have enough planes to waste on conventional bombing of China. He points out that China's principal cities are now protected by squadrons of jet fighters, and argues that we can't risk losing bombers in China—except to deliver the atomic bomb.

The danger is that bombing China might provoke war with Russia.

Truman on Ike

Harry Truman sounded off to an old Senate friend the other day about General Eisenhower's presidential ambitions.

"I don't know why in the world Ike wants the job," the President mused. "He's much too thin-skinned. Why he gets upset every time a columnist takes a nasty dig at him. You can imagine what would happen if he were sitting in this chair."

## The Washington Merry-Go-Round

By DREW PEARSON

Washington—Weary United Nations negotiators will make a last, desperate bid this month to end the Korean war in the big party tent at Panmunjom. But if their pleas fail, General Ridgway is ready to blockade the Chinese coast with battleships and to hit Chinese bases with bombers.

Here are the latest, inside developments that could lead to peace or full-scale war in a matter of weeks.

### Foreign Aid Dispute Is Blamed on Policies of British and French

By DAVID LAWRENCE

Washington, March 6—Maybe \$7,900,000,000 is the right amount of foreign aid that Congress should appropriate, and maybe it should be half that sum or maybe some other figure. The very fact that the Congress, including many members of the administration's own party, does not have confidence in the judgment of the President or the secretary of state is proof of the tragic atmosphere in which the nation's foreign policy is being conducted.

High taxes are, of course, referred to the proposals to cut the foreign-aid program as being merely an election-year phenomenon. For there is a growing antagonism to all foreign aid, not only this year but next year, and this is so serious that Mr. Truman will make a grave mistake if he ascribes it either to party politics or to a failure of the American people to understand the seriousness of the issues involved.

Mr. Truman did reveal a certain awareness of the depth of anti-foreign feeling when he endeavored to show how "gallantly" great Britain has been fighting in Malaya, and France in Indo-China. But the truth is there is no enthusiasm for Allied solidarity as such because scarcely a day goes by that the American policy is not condemned in various parts of the world as an attempt to buy good will with money. American motives are being questioned.

The American people are bewildered by the Administration's foreign policy. They are being told that billions are needed for defense of the free world, and yet they see the French Parliament refusing to tax even moderately for European defense. They read of the statements of both Prime Minister Churchill and the Socialist party opposition as denouncing the government of Chiang Kai-shek, and they read that support of Chiang is a cardinal part of the American government's policy.

They read the growing casualty lists coming in from Korea every week, and they see the United States bearing the brunt of the struggle with the blood of its youth, more than 106,000 killed, wounded or missing. Then they read the President's message to Congress saying that the war in Korea is being waged to prevent (Reproduction Rights Reserved)

## AS PEGLER SEES IT

By WESTBROOK PEGLER

Rome—The United States Information Service is an unblushing propaganda bureau with quarters in an old mansion up the hill behind the American Embassy. Some of its anti-Communist propaganda tricks are amusing, such as a dodge of disguising in a Red cover an attack on the Soviet record of repudiations of treaties with little countries and sending around to dumb Communist agents in factories, who could not detect the catch in the contents and therefore passed it out to the faceless men in their jurisdiction who probably can't read or write, either. These factory agents of the party thought it was official stuff from Moscow. There were several variations of this trick and they worked so well that the Communist bosses had to send out warnings against such Fasces treachery.

However, I have only faint confidence in such material, believing, as one of our head propagandists confessed in a candid moment the other day, that you can't measure the effects of your persuasion on ignorant people whose communism is gastric rather than cerebral by your press run or the tonnage of your product.

Lloyd Frey, a state department career man, is the head of the U.S.I.S. in Italy. By comparison with Shepard Stone's ponderous machine in Germany, with 900 head on the payroll and a "mission" to sell the stubborn Heinies that politico-personal mess of Roosevelt's theology which is called "democracy," Frey's mill is very modest. It is his job to win Italian workers in factories and on construction jobs and all such things away from the Communist unions into anti-Communist outfits. But there are three people for every working job in the country and that means serious worry and discontent and a degree of hunger in some localities. However, the stocks that I see day by day in the shop windows, big, voluptuous cheeses, those Italian sausage arrangements like six-inch pipe, encased in shiny yellow skins, gallons of olive oil, little baby lambs, enormous moldy hams and whole carcasses of hogs hanging on the hooks, would make an Englishman scream like a horse in a burning barn.

There is a strange difference here. The British have stronger char-

Q—Why are military tanks so called?

A—The tank got its name from the British, who developed the weapon during World War I. In order to keep the real purpose of the machines a secret, the British gave out the story that they were "tanks" for carrying water.

Q—How was the English legal rod determined in the 16th century?

A—The legal rod in the 1500's was the total length of the left foot of 16 men lined up to be measured.

## Let Comics Go, Crack Down on Crime, Sex Books

Albany, N. Y., March 7 (AP)—Legislation to authorize state censorship of "comic" books and similar publications as a means of combatting juvenile delinquency has been killed by the Assembly Ways and Means Committee. Stiff editorial opposition from newspapers presumably helped doom the measure at a committee meeting last night.

The Assembly group, however, approved two other measures drawn by a special legislative committee in an effort to crack down on publications featuring "crime, horror, sex and lust."

One would tighten existing laws relating to lewd and indecent literature by including in a general prohibition "those publications which are mainly devoted to the display of violence, crime, and other matters which may tend to influence minors to commit acts of crime and depravity."

### Would Prosecute Sellers

The other would authorize children's court judges to "entertain prosecution" against persons contributing to juvenile delinquency through dissemination and sale of such literature.

In other legislative developments:

—Tax cut blocs in both Houses gave up hope of forcing any reductions for the coming fiscal year.

The Republican-controlled Assembly swamped a Democratic move yesterday to force from committee a bill that would increase exemptions for the state income tax. The motion by Sharpen J. Maus of Cobleskill was defeated, 80-59.

—The Assembly sent Dewey

The doctor, who flew to Japan to marry the Navy nurse, spent a nervous time on the dock when his wife's debarking was held up by baggage delay. his measures to give the state's \$8,000 workers a 6 per cent, temporary pay raise on their base salaries, effective April 1. It also cleared a second pay bill to continue another year the temporary, sliding-scale raises granted by the 1951 Legislature.

—Governor Dewey also received from the Assembly a bill to provide a permanent \$570 annual pay raise for state troopers, and to boost starting salaries for rookies from \$1,380 to \$2,000 a year.

### Want More Coverage

—Democratic minority leaders said they would "launch a vigorous floor fight," probably next week, to force from committees several bills to broaden coverage of the state's unemployment insurance law.

Their measures would provide coverage to employers of one or more workers (instead of four or more, as now), boost benefits and extend them to include wives and dependent children of claimants.

—The Senate received an Assembly-approved bill, backed by Governor Dewey, to extend the jurisdiction of the State Commission against discrimination (in employment) to restaurants, hotels and other public places. The Assembly cleared it unanimously yesterday.

—The Legislature sent Dewey his measure to draft a new attack on alcoholism. The \$145,000 program would help create new, locally operated alcoholism clinics and provide for a statewide study of the growing problem.

### Would Aid Palsy Victims

—The Joint Legislative Committee on cerebral palsy urged more state aid to localities for palsied victims and an expanded state program for training teachers and physicians, who would specialize in this field.

The legislation to clean up "comic" books and similar publications was drafted by a joint legislative committee headed by Assemblyman Joseph F. Carlini, Nassau Republican.

### Use Silver Dollars

Washington, March 7 (AP)—The United States government is unwillingly in the business of making poker chips. Silver dollars, it seems, are ideal for the purpose. Leland Howard, assistant director of the mint, told the House Appropriations Committee a heavy demand for the silver dollars, which no one else seems to crave in larger numbers, comes from the wide open gambling areas. "To be perfectly frank," he said, "they make a very good poker chip because you cannot counterfeit them very easily and they are used extensively out through the Rocky Mountain region." A lot of them," he added, "are in use around Reno, for specific purposes."

### Stein Electrocuted

Ossining, N. Y., March 7 (AP)—Bernard Stein, 35, died last night in Sing Sing prison's electric chair for the 1946 holdup slaying of a Times Square tavern customer. Stein was the third man to pay the supreme penalty for the shooting of Sol Moss, an official of the AFL International Ladies' Garment Workers Union. The other two men, Milton Shaket and John Reilly, were electrocuted in 1948. He was silent as he walked to the death chamber with Rabbi Irving Koslowe, attending his first execution as an official Sing Sing chaplain.

### Young GOP for Ike

New York, March 7 (AP)—A meeting of the New York Young Republican Club voted 82 to 26 last night in favor of Gen. Dwight D. Eisenhower over Sen. Robert A. Taft for the GOP presidential nomination. The club's board of governors expressed the same preference by a vote of 17 to 4 on Tuesday night.

## Non-Battle Casualties

Washington, March 7 (AP)—U. S. forces in Korea suffered 401,628 non-battle casualties since the start of the fighting to last Jan. 1, says Secretary of Defense Lovett. Most of them—378,914—have been returned to duty, he added. The figures were provided

yesterday by Sen. Knowland (R-Calif.), who had accused Lovett and the Pentagon of giving Congress "a complete runaround" on requests for such information. Lovett said the figures included all military personnel excused from duty for everything from a simple headache to a major operation.

## BABSON on BUSINESS

Babson Park, Ela., March 7—The 1951 dollar is worth only 38 cents when compared with the 1913 dollar of 100 cents. World War I inflation brought the 1913 dollar down to 50 cents in 1920. Post-World War I deflation took it back to 59 cents, while the depression of the thirties raised the value to 79 cents in 1933. Today's dollar is worth only 53 cents when compared with the 1939 dollar. What caused these changes is beginning to bother Wall Street.

The present downward cycle of the dollar started in 1933 when President Roosevelt depreciated the dollar by lowering its gold content, in order to try to drive prices up in the depression. The Gold Reserve Act of 1934 cheapened the dollar by 41 per cent. At that time the dollar was worth approximately 75 cents when compared with the 100 cent dollar of 1913. World War II accelerated inflation through high wages, strong demand for goods and services, and the shortage of such goods and services. Furthermore, the post-World War II era, characterized by its shortages of goods and buying scares, continued the spiral.

Two major contributing factors undermining the post-war dollar are labor unions and price support. Through continued pressure labor leaders have been making wage demands in excess of an increase in the work output per man-hour. Price supports have been such that in 1950, when we were in the midst of a boom, only six out of seventeen support crops were selling above parity. These supports are undermining the dollar because they strike at food prices. Wall Street is realizing that this kind of prosperity is one of "make-believe."

### Wall Street Getting Scared

A little inflation may seem like a good idea to some of our economic planners. It is more of an opiate than good economic sense. Cheap money at first deceives people into thinking they are better off than they really are. The more of it they use, the harder it

### Do You Remember

By SOPHIE MILLER

A short time ago, I mentioned the first piano brought to Kingston. It was from the Schoonmaker's book on local history. There were no dates given. Someone brought to my attention the Etude Music Magazine of June 1935, which on page 335 gives the evolution of the piano in photographs of museum pianos. It seems the Clavichord, German, circa 1533, came first. But it says, it was a "direct descendant of the Monochord" usually of four octaves. It looks like sort of a table model. Then came the spinet, Italian of the 17th century. A very dainty, decorative item, which had four slender legs. The Harpsichord, Italian, circa 1680 begins to look like our baby grand piano. It had four to five octaves with two or three strings to each note. The Piano E Forte Italian came next about 1710. With the Pianoforte, Viennese, 18th century following close. Mozart was fond of this early type of piano. Our Senate House has an early type piano, but do not remember which type it is.

Then came the Grand Piano in 1823, invented by a Frenchman by the name of Erard. It had the double repeating action, since used by most piano makers. Modern pianoforte technique was quite definitely built around the Herz-Erard action. I remember Adeline Silverstein, the piano teacher, who had her studio on the third floor of the Silverstein building, corner West Union and Broadway. She had a big old-fashioned square piano, and she used kerosene lamps on each side. She charged 25 cents a lesson, and you could even practice at her home daily with her aid for free. Then came the modern Grand piano, improved and refined by Steinway action. And now we have the modern small spinets.

Going back to 1910 in Kingston I remember Harry P. Dodge of 63 Green street. He was one of our finest local musicians and piano teachers. Other names familiar to me are Muller and Schwalbach of 297 Wall street and 44 East Strand. George H. Muller's band and orchestra which played at our Kingston Point Park in the summer. I think Margaret Paulding of 217 Wall street was a public school music teacher. There was Prof. William H. Riser of 69 West Chester street. I took lessons from him. He also used to play at St. Mary's Church, and I think his wife later gave singing lessons. Lina M. Schmidtke is listed at 72 Hone street, Louis Sutor, I remember also from 462 Broadway, across from the municipal auditorium. He called himself Prof. Sutor, and spoke with a heavy German accent. He claimed he had sung or played for the Kaiser in his younger days. I took lessons from him and remember he had very delicate long fingers and touched the keys ever so lightly. He liked to talk to my father after the lesson about "situation in Europe." Europe was always a picture as long as I can remember.

Irving B. Wood is also listed for piano and concert at 22 Hone street. The name, Nettie Burhans of 21 Janet street is familiar to me, but I did not know her personally. Mrs. Mary F. Cullen of 68 Ann street also gave music lessons. W. Whiting Fredenburgh was a teacher both of piano and organ and had his studio at 51 John street.

### U. S. Natural Wonders

The six natural wonders of the United States are the Grand Canyon, Niagara Falls, Yellowstone park, the giant redwood trees, the Rocky mountains, and the Palisades along the Hudson river.

**PIPES SKIRL FOR 2ND ARMY DIVISION**—Sgt. Eric Bradford, right, gives Pfc. Harold D. Corbett pointers on piping as the 2nd Army Division, in Korea, reactivates its bagpipe band. Some Scots complained when the band chose the Royal Stewart tartan for its kilts, but the Yank pipers felt better when the MacLaine of Lochbuie, Chief of the Clans MacLaine, wrote to the commanding officer of the 2nd, from Durban, South Africa, giving permission for use of his tartan. The MacLaine chief said it is "a token of my appreciation of all the United States has done in the cause of world freedom."

### Cheap Dollars

Communists resort to the cheap money-inflation philosophy. They find it effective dope. The great Englishman, Lord Maynard Keynes, wrote shortly after World War I, "Lenin said that the best way to destroy the capitalist system is to debauch the currency. By a continuing process of inflation, governments can confiscate, secretly and unobserved, an important part of the wealth of their citizens."

"This attack against savings strikes not only at security but at confidence in the equity of all existing corporations. Those to whom the system brings windfalls . . . become profiteers who are the object of hatred by the masses whom the inflationism has impoverished. As the inflation proceeds, the real value of the currency fluctuates wildly from month to month . . . and . . . all permanent relations between debtors and creditors become utterly disordered so that legitimate business degenerates into a scandal and a lottery . . ."

### Fake Prosperity

Present dollar business profits, plus fictitious inventory gains, plus inadequate depreciation charges, plus the huge dollar salaries and consequent illusion of prosperity have already drugged too many investors into thinking they are really prosperous. Wall Street is beginning to shudder when it thinks of the ultimate outcome!

### JACOBY ON BRIDGE

#### Watch Your Raise Of Partner's Suit

By OSWALD JACOBY

Written for NEA Service

It's unusual to raise your partner's suit with just a single small trump, and it's even more unusual if that raise takes your partner from a game to a slam. Such a raise was quite properly made by North in today's hand.

South's jump takeout to three diamonds was a force to game and a hint at slam. His next bid, a jump to five diamonds, indicated that his suit needed no support from his partner.

Since South also declined to show support for either spades or hearts, North reasoned that South must have three or four clubs and that he needed reassurance about that suit before he could venture to a slam. Since North had the ace of clubs, he could afford to carry on to slam.

West opened the three of clubs, and declared won in dummy with the ace. He expected to draw trumps and then give up a club trick rather than risk a club finesse and a possible ruff.

Unfortunately, the second round of trumps revealed the bad news. East had five of the missing six trumps, and was bound to get a trump trick.

"I thought your suit was solid," the dummy said reproachfully, seeing declarer's discomfiture. "So did I," muttered South, as he looked for a way to recover. A few seconds later he set out on a wide-open play for the slam.

Abandoning the trumps, he led his singleton spade and finessed dummy's queen. When that held, he discarded the ten of clubs on the ace of spades and ruffed a spade with the three of diamonds. He next cashed the three top hearts, discarding the jack of clubs, and led the fourth heart from dummy.

By this time East had three trumps and the king of clubs, while South had three trumps and the queen of clubs. If East discarded, South would ruff with the five of diamonds and give up his queen of clubs at the end.

If East ruffed, South would discard the queen of clubs at once and would make the rest of the tricks with good trumps. In either case declarer was bound to telescope his losing club and his losing trump into just one losing trick.

### Dr. Myra Woodruff Was Guest Speaker At Nursery School

Speaking on the requisites for a good nursery school Wednesday evening at the Fair Street Nursery School, 209 Fair street, Dr. Myra Woodruff of the Bureau of Child Development and Parent Education of the New York State Education Department included spacious quarters both indoors and out, variety of equipment and special guidance. Members of a number of nursery school parent groups attended the meeting.

#### German Visitors

With Dr. Woodruff were two visitors from Germany who are engaged in work here. Miss Suzanne Windisch of Kassel and Mrs. Elizabeth Falkenstein of Giessen, Germany, are Women's Affairs Specialists with the High Commissioner of Germany for the U. S. Government. These ladies expressed appreciation for being privileged to work under Dr. Woodruff, during her leave of absence from the State Education Department last summer when she served as consultant to family life education. Her headquarters were in Kassel, Germany.

A motion picture film, It's a Small World, was shown. It is of British origin and depicts activities in a London nursery school. It was produced by a commercial firm using hidden cameras. The excellent film was procured for use through the courtesy of the Ulster County Tuberculosis and Health Association.

#### Led Discussion

The guest speaker led a discussion following the showing of the film. In her summation, Dr. Woodruff said that a good nursery school requires spacious quarters both indoors and out, a large variety of equipment for both large and small muscle development and a program which should be planned to allow enough time for freeing children from pressures and encourage relaxation. "Young children should have the advantage of adequate supervision and indirect guidance of understanding from sympathetic adults who know developmental growth in terms of what the child needs," said Dr. Woodruff.

Concerning the mental health of young children, the speaker expressed the opinion that there should be a healthy attitude toward sex and that children should be free to express feelings of hostility and aggression thus working off inner tensions. It was her idea too, that there should be a wide variety of creativity and that a child should be permitted to use media such as clay, paints, books, instruments, blocks and other articles of assistance in developing his creative talents.

She spoke of the unlimited opportunity which should be made available for group experiences and commented in conclusion that "at nursery age level, it is most important for parents to know what the school is attempting to accomplish and cooperate with those in authority."

## Siepi of 'Met' Scored Triumph in Final Winter Concert at Kingston High School

Cesare Siepi, one of the leading bassos of the Metropolitan Opera Association scored a real triumph Thursday evening when he appeared in a recital at the Kingston High School auditorium before 700 eager music lovers. The rich texture of his voice, coupled with a faultless intonation and dramatic interpretation endeared him to his large audience. His program, in which he was ably assisted by Martin Rich, included compositions by Verdi, Ravel, Scarlatti, Strauss and Rossini.

Secure in his musicianship, the handsome young Italian basso, displayed uncommon vocal ease and style throughout his recital. This was particularly true of the Traum durch die Dammerung. Richard Strauss: Heimliche Aufforderung. Richard Strauss.

During the intermission, Lloyd R. LeFever, president of Community Concert Association announced the opening of the subscription campaign for next year's concerts. The local organization has been in existence for more than 20 years and has brought

massive applause.

Last night's concert brings the current series to a close. It was indeed a memorable and rewarding evening for the hundreds who braved the inclement weather for the privilege of hearing Cesare Siepi who undoubtedly will one day be our leading vocal artist.

### WHAT ABOUT A REWARD?

Whether or not to send a reward is the subject of the following letter: "Recently I lost my purse in the theatre and fortunately for me, the person who found it was honest and mailed it to me. I was very grateful to have it back as there were several things in it of importance to me. I shall, of course, write a note of thanks to this person, but I would like to know if it would be proper to enclose a sum of money with the note."

If the purse had very little money in it, then you would simply thank the finder for the return of it. But if it had a considerable amount of money you would thank the finder and send a fair proportion of it to him (or her) and ask that he (or she) please accept it.

### He May Have Thrown It Away

Dear Mrs. Post: Last year I gave a boy 1 had been going out with a portrait picture of myself for his birthday. About two months ago we had a very serious quarrel and no longer see each other. I would like very much to have this picture back. May I write him and ask to have it returned?

Answer: Ordinarily it is not possible to ask for the return of a gift, but under the circumstances you describe, I think you might write him a note and ask him if he still has your picture and if so, that you would like to have it back.

### Mother Overreacting

Dear Mrs. Post: I would like very much to have you settle a problem which constantly arises between my mother and me. Whenever she invites friends in to dinner, she insists that I be present. She thinks my absence might be taken to mean that I do not care for that person's company. I can't see this at all, and would like to have your opinion.

Answer: If the guest is near your age and you are absent every time he (or she) is present, your mother would be quite right. But if the guest is one of your mother's age, your being absent could not possibly be construed as a slight.

What should one serve for a formal dinner, a buffet lunch or supper? Mrs. Post is sorry she cannot answer personal mail, but her leaflet E-25, "Menus for Every Occasion," will help you. ## Party for Esopus Legion March 13

The Town of Esopus Post, American Legion 1298, will hold a birthday party next Thursday night, it was announced today by Wilson Tinney, chairman.

The party will be held at the Mirror Lake Lodge, Route 9W, south of Port Ewen. A dinner will be served following which there will be music, entertainment and dancing. In addition, several awards will be made in connection with the Legion membership drive which has been concluded by the Esopus Post.

This year's party will mark the first time that such a party has been held by the Esopus Legion Post in five years and in the future it is planned to make this affair an annual event. Tinney and his committee have planned an interesting evening of events and it is expected that this year's party will be the outstanding social function of the current year at the Town of Esopus Post.

## Coach House Players Age With Make-Up Aids

In preparation for the presentation of a three-act comedy, The Silver Whistle, Saturday evening at 8:30 o'clock in the Kingston High School Auditorium, members of the cast-up have devoted considerable time to the study of make-up. The cast will portray elderly characters. This requires great skill in the art of make-up for the purpose of adding 30 to 40 years and sometimes more to the appearance of the players. In the photo, Houston Richards, director, passes on the results of the ageing process. Shown, (l. to r.) Houston Richards, Theresa Lloyd, Scott Foster, Bernice DeWells and Joan Hansen. **Progressive Candidates**

New York, March 7 (AP)—A Progressive party committee has recommended Vincent Hallinan of San Francisco and Mrs. Charlotte Bass of New York as "peace candidate" nominees for president and vice president. The selections were made yesterday by the candidates committee, which urged the party's state units to meet and vote on the two. Hallinan is a 55-year-old attorney. Mrs. Bass, a Negro, formerly published the California Eagle, a Los Angeles Negro newspaper. The party's 1948 presidential candidate was former Vice President Henry A. Wallace, who since has withdrawn from the Progressives.

## Parents' Harsh Childhood Colors Their Discipline

By MURIEL LAWRENCE

The comics page is attached to the editorial page. Bobby wants to look at the comics page; his father wants to read the editorials. So Bobby's father says, "Isn't it your bedtime? Run along to your mother. I don't want to be bothered now."

To Bobby's father, the editor's analysis of the President's latest speech is important; to Bobby, Bugs Bunny's latest adventures are important. So, discovering that they can be partially deciphered on the folded back of his father's paper, Bobby squats down at his parent's knees to enjoy what he can of his comic strip.

Without warning, his father unfolds his paper and his stretched hand raps Bobby's eye. Bobby howls, his father roars and his mother comes flying in from the kitchen.

"It's his bedtime, isn't it?" cries Bobby's father. "I'd like to get some peace around here if it could be arranged. The trouble in this house is that the kids don't know their place! I'd have been hauled out to the woodshed when I was a boy for bothering my father after dinner . . . ."

Thirty years ago, in the woodshed, Bobby's grandfather expressed the identical sentiments. Waiting for Bobby's father to bring him the switch, he had roared, "I'll show you who's boss around here! When I was a boy, children were seen and not heard . . . ."

That's how it goes—our attitude toward childhood. We grant it the status our parents gave it as their feeling for it was given them by theirs. The attitude of Bobby's father toward childhood was forged in the frustration and fury of outraged helplessness he once felt in the woodshed.

Bobby's father may have recovered from his resentment at his father but he has not recovered from his contempt for childhood as an inferior state.

## A VICTORIAN LEGACY THAT'S OUTMODED

Though he should not have surrendered his right to read his paper in peace, Bobby's father should long since have surrendered his imperialistic feeling for childhood.

He should have said to Bobby, "You cannot have the paper now because it is my turn to read it. If you are impatient, it will take me a long time to read it. If you are patient, you can have it in less time."

Our families were expert at keeping us "in our place" as children, we are probably not as proud of them as we think. Nobody who is emotionally well enjoys being extinguished or degraded.

Dr. Karl Menninger, in his book, "Love Against Hate," writes that "Parents often treat their children as they themselves were treated by their own parents, thus achieving a long deferred and displaced revenge for the indignities and suffering they endured."

The idiot phrase "children should be seen and not heard" is one of those Victorian legacies that rips apart like your great-grandmother's silk if you touch it too closely.

What's not idiotic, but dangerous about this phrase is that it lends itself to all kinds of variations: "My father was a hard man, but it was good for me." . . . . "I came up the hard way and look at me now . . . ."

We should take care not to glamorize the harshness of our own childhood lest we confuse harshness with firmness in our treatment of our sons and daughters.

## Ruling on Pipelines

Hartford, Conn., March 7 (AP)—The State Supreme Court has ruled that the Natural Gas Pipeline Act of 1950 is constitutional. In a unanimous opinion, written by Justice Patrick B. O'Sullivan, the court held yesterday that the act does not violate any rights guaranteed by the state constitution. The act gives to natural gas pipe line companies the right of eminent domain. The opinion says that in addition to the right of eminent domain for the purposes of acquiring a permanent route for a pipeline, the company may temporarily take 10 feet of land on either side to carry out the construction of the line.

More for Military

Washington, March 7 (AP)—The State Department believes Russia now is devoting substantially more of its national output to military preparation than the United States. The department bases its estimate on the Russian 1952 budget submitted yesterday to the Supreme Soviet at Moscow. This budget increased the allotment for strictly military purposes to 113,800,000,000 rubles, 23.8 per cent of the total earmarked for all purposes and an increase of 17,400,000,000 rubles or 18 per cent over 1951.

## Eastern Clubs Lead In NBA Divisions

(By The Associated Press)

The Rochester Royals and the Syracuse Nationals are a step nearer divisional championships in the National Basketball Association today.

Rochester moved 1½ games ahead in the Western division by defeating the Milwaukee Hawks, 77-74, last night while runner-up Minneapolis is idle.

Syracuse increased its lead in the east to three games over the idle Boston Celtics by nosing out the Fort Wayne Pistons, 85-81 in double overtime.

The Royals and Hawks battled on virtually even terms until midway in the final period when Arnie Risen dumped in seven straight points to give the defending champs the lead for keeps. Risen was high scorer for the night with 24 points. Dillar Crocker collected 23 for Milwaukee.

## This Is What Bosox Have Been Looking For

Sarasota, Fla., March 7 (AP)—In order to get sluggers Ted Williams and Junior Stephens up to the plate more often, Manager Lou Boudreau is moving them up higher in the Boston Red Sox batting order.

"My idea," says Boudreau, "is to try to get both Ted and Stephens at bat five or six times in every game. In that fifth or sixth time one or both might hit a home run."

Williams moved from third to second and Stephens from the fourth "cleanup" slot to third with Walt Dropo fourth. Second baseman Johnny Pesky will lead off, with Clyde Vollmer fifth, followed in order by Dom DiMaggio, the new pitcher, catcher Gus Niarhos and third sacker Fred Hatfield. The new array will get its first test against the New York Yankees next Monday in St. Petersburg.

## Training Camp News in Brief

(By The Associated Press)

St. Petersburg, March 7 (AP)—Catcher Yogi Berra of the New York Yankees insists he's in shape although his tips the scales at 196, about ten pounds above his playing weight.

Berra, named the Yanks' cleanup hitter yesterday, believes he will shed the excess weight during the season but Manager Casey Stengel is going to use Yogi in most of the exhibition games to bring down Berra's weight.

**Black Just Creeping**

Vero Beach, Fla., March 7 (AP)—Rookie Negro righthander Joe Black of the Brooklyn Dodgers said today he is not another Don Newcombe.

"I'm just a guy trying to make the club," Black said. "I'm not as fast as Don is. He's a polished pitcher and I'm not. He had poise out there. That's something that comes with confidence. I hope to get it."

Phoenix, Ariz., March 7 (AP)—Second string catcher Sal Yvars of the New York Giants is having a tough time.

Yvars has a blood clot in his right shoulder as a result of being struck by a foul ball. The previous day he was struck on the head by a swinging bat and has a lump on his head.

Lakeland, Fla., March 7 (AP)—The sparkling play of two rookies had Detroit Tigers veterans hustling today.

That was the result of the first intra-squad game yesterday in which young John Phillips at third and Alex Garbowsky at shortstop battered home runs and starred in fielding.

Gerry Priddy, second baseman who ended his holdout yesterday, struck out swinging as a pinch hitter. Outfielder Hoot Evers, slump-ridden last year, homered over the left field wall.

**Simpson Rallies**

Tucson, Ariz., March 7 (AP)—Maybe Cleveland manager Al Lopez was a little hasty in saying outfielder Harry Simpson was looking bad.

Just a day after he said that, Simpson collected four hits in six trips to the plate—off the Indians' two relief pitchers, Lou Brissie and Steve Gromek. He got a double, two singles and a safe bunt.

St. Petersburg, Fla., March 7 (AP)—Manager Eddie Stanky has mixed veterans and recruits in the lineup for the St. Louis Cardinals' first exhibition tomorrow against the New York Yankees.

Neither Stanky nor Red Schoendienst are listed for second base. Earl Weaver will hold down the keystone sack.

How to Make Your Gun Fit You

By WARREN PAGE  
(Shooting Editor)

Most shotgun shooters, whether rabbit hunters or skeet and trap artists, have fitted themselves to their guns, rather than going to the trouble of shaping the gun to the man. For some 80 per cent of us it's easy to learn to shoot any smoothbore of reasonable dimension.

What the factories call a standard shotgun stock will usually measure no less than 13½ and no more than 14 inches from the center of the buttplate or pad to the center of the trigger—which is the length of the pull.

The standard buttstock is so shaped that if we extend the line of its sights (simplest way is to turn the gun barrel down to the forward tip of the comb) this drop at comb will be 1½ inches.

These measurements apply whether we shoot a pump gun, double, over-under, or semi-auto. The average man, from five feet six to six feet, kills game and smashes clay targets very handily with that gun-fit formula.

**Alas, The Poor Hunter**

Without a Real Shape

But lot of us characters have swan necks or no necks at all, Abraham Lincoln or moon faces, arms like either gorilla grippers or seal flippers. We have fits from poor gun fit. There are thousands of old crook-stocked smoothbores kicking around that were designed for men who shot with their heads straight up. Trying to hold them in modern fashion, check forward and firmly on the comb, means only misses by undershoot.

So, if you can't hit a barn broadside, the fault is probably your own, but it might—just might—lie in the stock shape. Try throwing the gun up quickly and aligning it without thinking or aiming at that picture of Uncle Harry over the mantelpiece.

And unless the weapon fits you as Uncle Harry's wedding suit would; unless you've done enough shooting with it to have a clear idea as to what's wrong, don't blow your dough on a fancy custom stock job right away—make sure you're not able to fit yourself to that standard stock first.

## INJURED SNIDER ASSISTED FROM FIELD

Brooklyn Dodger outfielder Duke Snider is helped from the field at Vero Beach, Fla., after injuring his ankle. Dr. Eugene Zorn (left), club physician, and Trainer Harold Wendler help Duke who was taken to a hospital for examination. It was later disclosed that he had sprained his ankle and would be out for at least a week. He was injured sliding into third base in an intra-squad game. (AP Wirephoto)

## St. Ursula Paired Saturday Against New Rochelle Aces

St. Mary's, St. Joseph's Play in New York Sunday

Ulster County CYO basketball teams will seek state and district championships on two fronts this week.

Led by Betty Ann Bruck, St. Ursula's Academy will try to halt the four-year reign of St. Gabriel's of New Rochelle in the Upstate CYO Girls finals on Saturday at 2 p. m. at the municipal auditorium.

St. Ursula's completed an unbeaten season in the inter-county competition, while St. Gabriel's won eight straight in their section.

The winner of this game will be paired against the Greater New York champions for the Archdiocesan titles at Cardinal Hayes High School next week.

**Two at New York**

Two of Ulster county's undefeated CYO Upstate champions will meet at Cardinal Hayes High School in the Bronx Sunday afternoon to compete in the Boys Archdiocesan finals.

St. Mary's 85-pound Upstate champion and St. Joseph's 100-pound division titleholders will take on the Greater New York finalists for the titles in games starting at 1 p. m. and 2 p. m. respectively.

St. Mary's and St. Joseph's completed undefeated seasons in county competition and scored decisive triumphs in the Upstate finals last weekend at Poughkeepsie.

Buses will leave St. Mary's School about 9:30 a. m., Sunday for the trip.

## Burke Maintains Hot Winter Pace

St. Petersburg, Fla., March 7 (AP)—The marked man of the winter golf circuit, Jack Burke, Jr., of Houston, Tex., showed to a Montreal contract for a record Dodger bonus exceeding \$21,000.

All 16 major league clubs were after the Middle Village, N. Y., athlete, who won four letters in

## Gagne, New Ace, Here on March 14

Vern Gagne, acclaimed as one

of the most colorful young wres-

ters to come along in years, will

show his wares to Kingston fans

in a best of three falls match with

Chris Zaharias at the municipal

auditorium on Friday, March 14.

The contest, promoted by Ted Bayly of Troy marks the return of the grunt and groaners to Kingston after an absence of several months.

Gagne, 25 years old, a graduate of the University of Minnesota, held the intercollegiate and Olympic wrestling title before turning professional. He also was an outstanding football player for the Golden Gophers and a member of the College All Star football team of 1949.

**Drew With Thesz**

Since turning professional two years ago, Gagne has battled the best in the pro game, including champion Lou Thesz, whom he held to a draw in Chicago six weeks ago. Each scored a fall in that match before a crowd of 11,000.

Gagne, well built 215 pounder, features a "sleeper" hold as his best offensive weapon. However, he is adept at arm and leg holds and throws a mean flying block.

He'll probably need all his skill against Zaharias in their two out of three fall tussle. The latter, brother of the more famous George, is a rough, tough guy who

disregards all rules and science

once the bell rings.

Another two out of three fall match, and a one fall, 30 minute opener will complete the opening card.

each baseball, basketball and football at St. John's.

Lynk, 18, is 6-3, weighs 210 pounds and bats and throws right-handed. He will report to the Dodgers' Vero Beach, Fla., camp next week, in advance of the Montreal squad March 19.

# Hank Kemmerer's 737 New Major Record; Gildersleeve Cracks 709

Veteran Ace Hits  
255-255-227 to  
Edge Shufeldt

Gildersleeve's Scores  
Are 201, 251 and 257

The boys were shooting telephone numbers in the Ferraro Major League last night and Hammerin' Hank Kemmerer, riding high on his pet 7 and 8 drives, led the pack with a 737.

The man with the scientific flips and turns grooved his swing for successive scores of 255, 255 and 227. It all added up to a rousing 737 and eclipsed the former high of 735 set two weeks ago by George Shufeldt.

Young Charlie Gildersleeve, the young man with the big future, moved into the Hall of Fame with the first "700" of his career on solos of 201, 251 and 257 for 709.

The three top triples of the night were fashioned on three different pair of lanes. For Kemmerer the 737 was his fourth "700" of the campaign and fulfilled a promise he had made to himself to roll "one more 700" before the season ended.

While Kemmerer was taking alleys 7 and 8 apart, Gildersleeve assassinated alleys 11 and 12 for his big count.

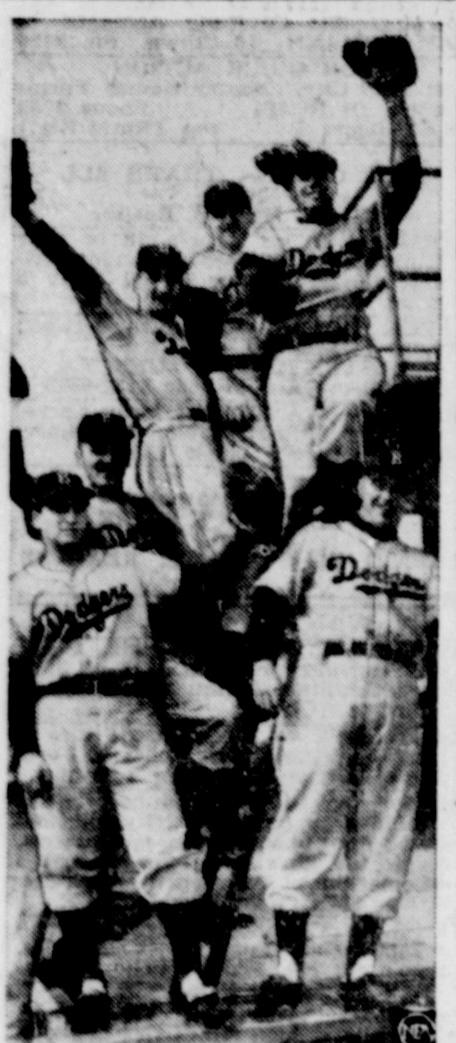

**Pounds 5 and 6**

Meanwhile, Grunewald's middle alleys curve ball was making a joke of alley 5 and 6's highly vaulted impregnability. He hit them like he owned them. Not many guys do it that way—on that part.

Elsewhere the pins toppled like wheat before an Iowa mower and the results read like Pentagon telephone numbers. Even the teams got into the scoring act. Miron Lumber rapped 1116; Manhattan Balls had 1027; Hynes Shoes 1034 and 1071-3006; and Wiltwyck Motors 1083.

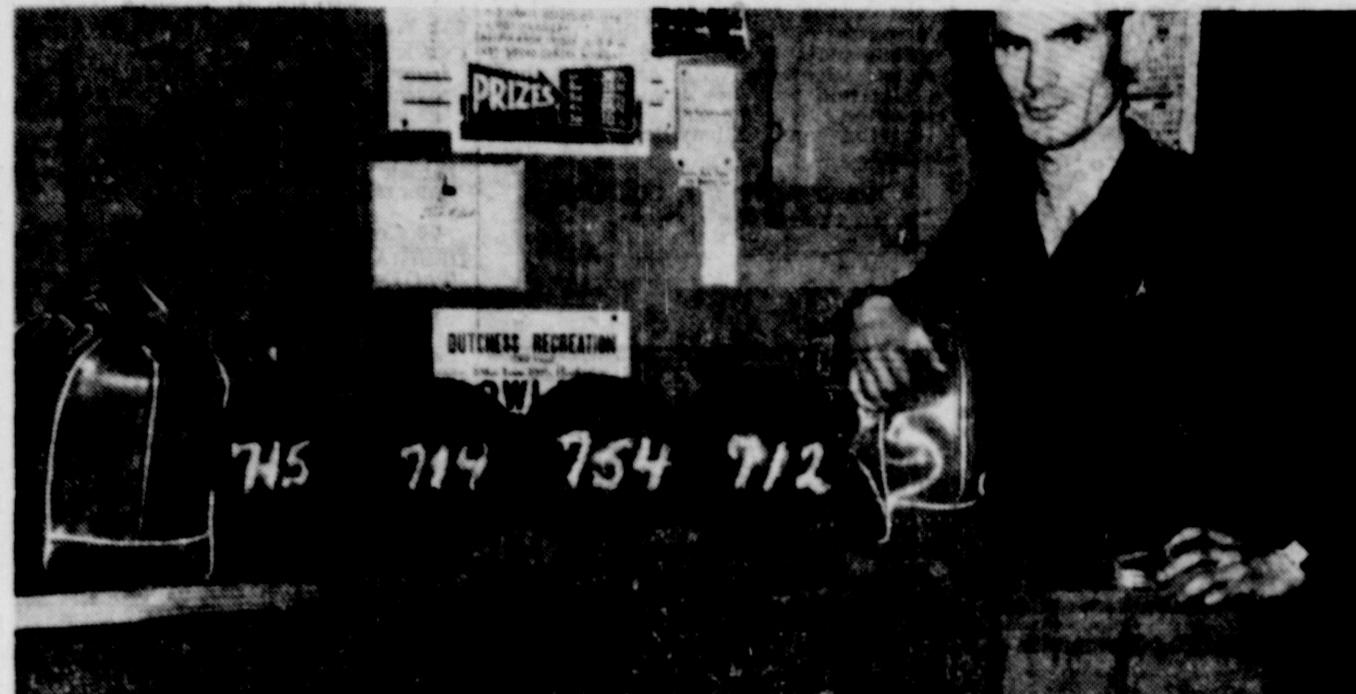

Charlie Grunewald, who had a big night in the Independent wheel Monday, rolled off a hat trick of 206-247-284-687; George Robinson 235-268-673; Bruce Davis 256-203-211-670; Clifton Quirk 228-231-204-663; George Flemings 237-246-661; Ken Williams 204-204-243-651; Harry Wilber 220-222-639; Ad Jones 223-212-201-636; Harry Seocreto 220-224-630; Jim Moss 232-234-623; George Shufeldt 223-606; Charlie Manfrro 226-593; Chris Robinson 214-208-593; Bill Kuehn 209-591 and Harold Broskie 254-580.

Dick Howard's Harvest of "700" Triples

Until this season veteran Dick Howard had not been able to crash the charmed "700" circle in bowling. Then suddenly he found "the key." Two "700" triples in one day set an all-time local record in league competition and he has since added two more. The scores were 715, 714, 754 and 712. (Freeman Photo)

### George Stoutenburg Rolls 248 and 614 For New Records in Commercial Loop

George Stoutenburg, a 146-average kegler, established two new individual records for the Commercial League last night.

Stoutenburg clicked for scores of 199-248-167 for a 614 triple, the first "600" triple of his career. The 248 blast eclipsed Bob Felton's former high of 247 and Stoutenburg's 614 also bettered Felton's 608.

Al Stuett powered 171-149-170-490 in the Jacobson Mixer; Harry Pierce had 174-195-173-542 in the No-Can-Do League; Buddy Garlick a 120-average keglerette paced the Central Women's League with a sparkling 181-106-215-502.

Eleanor Sinner pounded 170-161-139-470 in the final session of the Sisterhood League and Ted Young posted 197-169-193-559.

**Freeman Wins Title**

Freeman No. 1, by sweeping three games from Potters, clinched the Commercial League flag. With three weeks left to play, Freeman has won 51 and lost 21. Ertels, in second place, have won 40 and dropped 32.

Art Shelightner was on his way to a big one with opening blasts of 212 and 238 but faded to 139 to settle for 589. Gus Bodenweber reeled off 213-565; Art Moak 205-551; Herm Seelbach 205-546; J. Beaver 507; George Kuriger and J. Schommer 500.

Kingston Hudson coppered the Sisterhood League pennant. Rosalie Eckdahl and Miriam Posner tied for the runnerup slot at 158. Madeline Propp pounded 447; Bea Ariesky 444; E. Schechter 436; D. Weingarten 434; Lila Lifshis 427; T. Lazarcowit 421; B. Peckyry 412 and R. Nussbaum 408.

Rose Nussbaum has been elected Sisterhood president for the 1952-53 season, with Edna Krepel, vice president; Jean Singer, secretary; Sally Basch, treasurer; and Rae Saenger, sergeant-at-arms.

**Val Janacek Has 489**

Runnerup Val Janacek clicked 489 in the Jacobson Mixer. Joe Heidcamp rolled 466; R. Geil 465; C. Burgher 463 and W. Robinson 453.

Second best pin toppler in the No-Can-Do was Ralph Frederick with 228-538 and Peter Slover topped 530; Bill Thomas 201-527; Johnny Lowe 523; Emil Boesnach 520; Ray Otto 201-519; H. Ferguson 514; O. Carney 513; Charlie Turc 511; Burt Burr ditto; Norman 506; Paul Khederian 502; John Frederick 202-504; Stan Colvin and Allen Hoey, 500. J. Fatum near-missed with 499.

Trailing Buddy Garlick in the Central Rec Women's loop were Ellen Hutton with 475; Marie Grimaldi 474; Jessie Burnett 463; B. Schwartz 461; Jennie Spada 457; M. Miller 455; T. Garon 454; and J. Kean 452.

Herman Osmers packed 215-528 and Sam Hayes had 522 in the Federation American. Other leading pounders were Bill Hornbeck 512; Art Crist 213-519; J. Spader 506; Harry Pine 498 and Ralph Post 497.

**Rangers Improve Playoff Chances**

(By The Associated Press)

The New York Rangers are in the driver's seat today in their bid for a National Hockey League Stanley Cup playoff berth.

Coch Bill Cook's hustling New Yorkers gained undisputed possession of fourth place, the final playoff berth, last night by whipping the Chicago Black Hawks, 5-3, while the pennant winning Detroit Red Wings edged the Boston Bruins, 2-1.

## Receives Dairy Production Award

Benjamin Scholten (left) of this city on Thursday received a cash award from National Dairies, Inc., placing fifth in the state in an efficient production contest for dairy herd improvement supervisors.

Presentation of the award was made by George Kernochan, manager of the Kingston General Ice Cream Corporation, an affiliate of National Dairies. The award is based upon efficient and accurate records and the supervisor's work in advising dairymen through his records on such matters as feeding, breeding and culling cows.

Announcement of the award was made Thursday night at the annual meeting of the Ulster County Artificial Breeders Cooperative at the New Paltz Methodist Church.

### On Europe's Cattle

Raymond V. O. DuBois of New Paltz, president, conducted the meeting, which was attended by about 120 members and guests. Speaker was Professor K. L. Turk, head of Cornell University's department of animal husbandry. His informative talk stressed the origin of the major breeds of dairy cattle in European countries he visited last summer. Photographic slides in color were used to illustrate his talk.

Albert S. Fox, of Olive Bridge, secretary-treasurer, reported the cooperative's gross business for the 1950-51 fiscal year totaled \$22,259, and the estimated budget for the 1951-52 year will reach \$27,000.

### Business Grows

A proportionate growth in business was experienced in both districts, No. 1 employing Charles Maxfield of Mt. Marion as inseminator, and No. 2 district employing C. Kenneth Courter of Central Valley.

Discussion brought out the fact that further increase is expected next year when a third inseminator will be hired. Interviews of candidates are now being scheduled.

Directors elected were William Krout of Saugerties for three years, Raymond V. O. DuBois of New Paltz re-elected for three years, and Herbert DuBois of Wallkill elected for one year to fill the unexpired term of John Pace, who resigned.

The board of directors will meet in one or two weeks to select officers of the cooperative.

Refreshments were served by ladies of the New Paltz Methodist Church.

but was unable to overtake the fleeing bandits. The bandit's car later was found abandoned and ablaze on Division street, East Greenwich, R. I., about five miles from the air station.

The bandits were wearing green navy fatigue clothes and Hallie-mens masks, Lynch said.

### To Cash Checks

Lynch said he had received the money just a few minutes earlier from the naval disbursing department a half mile away to cash checks for civil service employees on the air station. Today was a semi-monthly pay day.

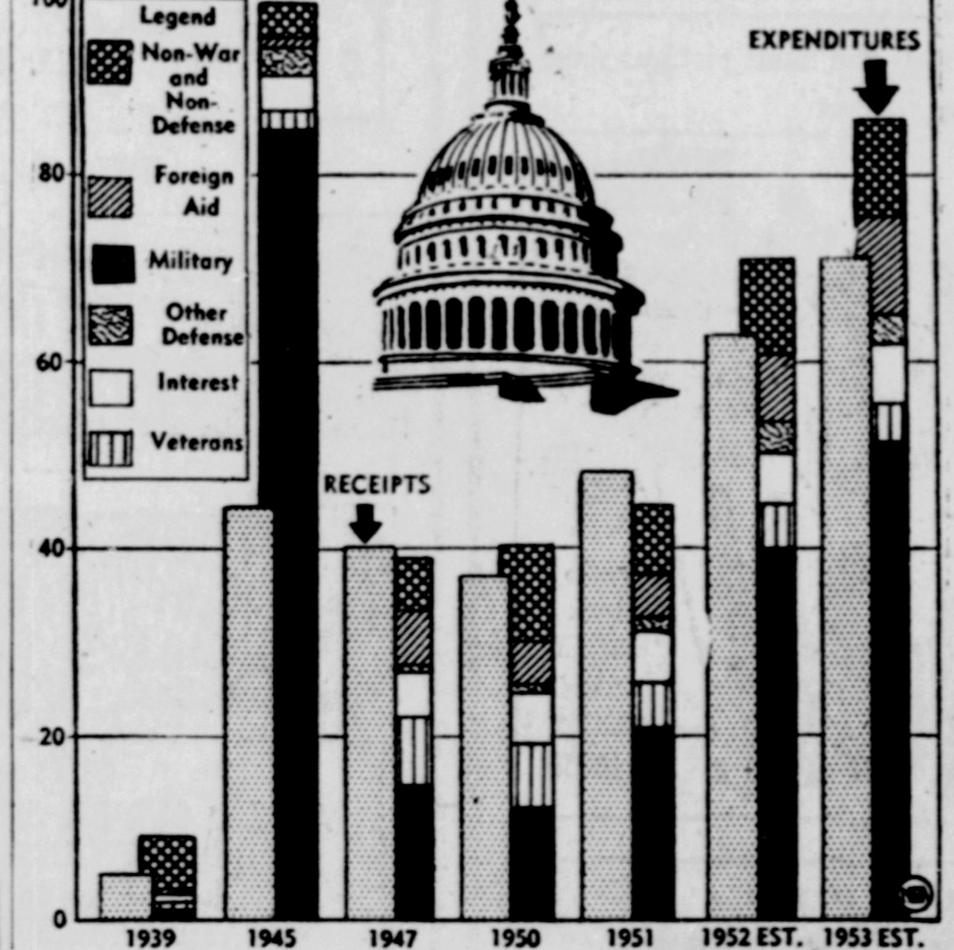

The \$100,000 was the proceeds of a check Lynch said the disbursing office had cashed for him.

The money was in two white cloth bank bags and a brown paper bag.

There was \$40,000 in \$20 bills and \$15,000 in \$5 bills in one bag. Another contained \$40,000 in \$10 bills and \$4,000 in one dollar bills. The third bag contained \$1,000 in half dollar pieces.

The only favorable note in the otherwise dismal picture is that the increase in deaths was approximately in proportion to the increase in car mileage, according to the report.

**BILLIONS OF DOLLARS**

**HIGH COST OF WAR**—The largest share of 1953's Federal budget will go to pay for past wars, possible future wars and the cost of containing the spread of international communism. Above Newschart shows rise in total dollars received by U. S. government along with military and non-military expenditures since 1939. For every dollar that will be spent during the coming fiscal year, 83 cents will go for past or future military services and commitments. Data from National Industrial Conference Board.

partment to such an extent that the state had requested permission to inspect the plant on April 2, when a delegation of state officials will be enroute to New Paltz State Teachers College. They will stop over in Kingston to inspect the Washington School.

### To Use Local Brick

The board voted to face the new field house with Hudson river brick rather than use a yellow face brick. This will mean a saving of \$14,000. The motion to use local brick was offered by Trustee Baltz and seconded by Trustee Darling.

Trustee Kalish gave a report on a survey of insurance carried on the school building and contents. He recommended, and it was approved, that there be written under a five-year plan additional insurance on buildings and contents in the various schools at an additional cost of \$4,434.46. This will include an increase in insurance of about \$2,418,200. Once the five-year plan is effective the annual premiums will be equal amounts. It was voted to carry \$50,000 on No. 1 school and \$180,000 on No. 8 so long as these buildings remain in the board possession.

Malicious mischief and vandalism insurance will be carried on the two schools at a cost of \$415. The board also voted to have burglary insurance written at a cost of \$562.50 for three years, on all school buildings. This will cover burglary losses up to \$500.

Permission was granted the Mendelsohn Club for use of the high school auditorium for a concert on May 2 and for a prior rehearsal. Permission was granted for use of the Washington school gym for an art show in connection with the 300th anniversary celebration from July 15 through August 15.

The board voted permission for use of the high school property on April 5 when the Queen of the Netherlands visits Kingston. She will be received officially on the front steps of the high school. The high school band was also authorized to play at that time.

A contract to supply paper towels was awarded to Spiegel Brothers, Kingston, for the sum of \$102,50. William O'Reilly, Inc., was awarded a contract to furnish supplies for the office of the Board of Education at a cost of \$2,122.75. Kingston Chemical Sales Company was awarded a contract to supply sweeping compound at a cost of \$138 and Spiegel Brothers Paper Company was awarded a contract to supply "oil base" compound at a cost of \$102.

### Attendance Report

Superintendent Laidlaw gave his monthly report on attendance. He also reported that next year, due to opening of the Onteora School District, Kingston schools

would lose about 75 students.

Fifteen of these would be from the M.J.M. school. Several of the students who will be unable to secure necessary subjects in the Onteora district will continue to Kingston school and complete their courses here. Superintendent Laidlaw reported that removal of seventh

grade students from the elementary schools had provided ample space for all entering students next fall. Later there probably will develop a housing problem if registrations continue to mount.

The unpaid school tax roll was ordered returned to the tax enforcement officials. Properties on

which school taxes remain unpaid will be sold at the next tax sale for taxes.

A report on the school lunch program was made and also a report on the Distributive Education program in which 78 local concerns are participating.

The board adjourned.

Answer the Call during March. Give to the Red Cross.
